

Quick Start Guide

- 1** Using the provided kit, tie the string to the Lifebuoy pool unit.

- 3** On the home unit, install the included 9V battery as shown.

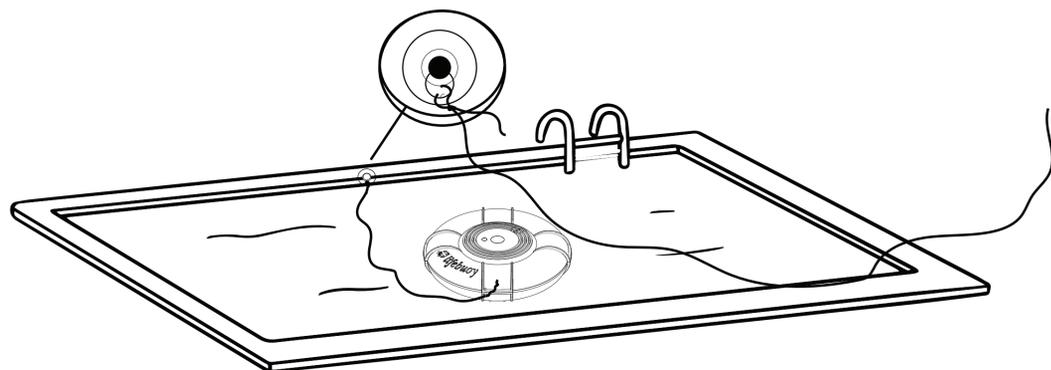

- 5** From the App Store, search for and download the LifebuoyAlarm app.

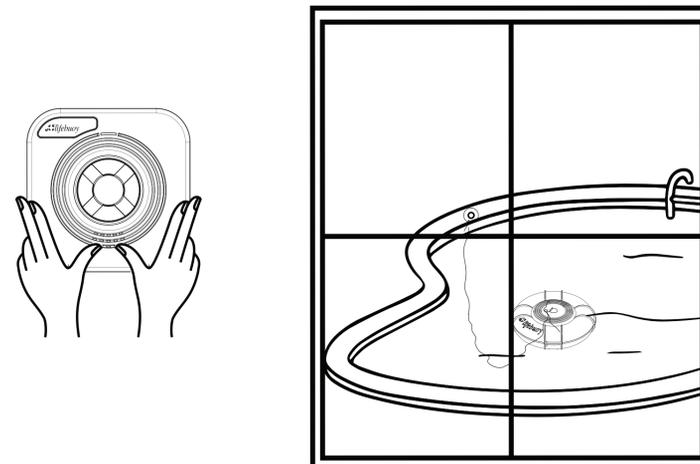

🔍 LifebuoyAlarm

- 2** With the transparent cone facing down, place the pool unit in the pool away from the pump outlet.

- 4** Install the home unit high up on a wall in dry place that is as close to the pool as possible.

- 6** To check signal strength, open the Lifebuoy Alarm app, then press the home unit button.
Note: Holding the button for longer than 3 seconds will shut down the alarm.
